EXPERIENCE

Morgan, Lewis & Blockius   **May 2019 – Aug. 2019**
1L Summer Associate
Worked in patent prosecution in the areas of bioinformatics, software, and computer engineering. Worked with supervising attorneys, clients and USPTO Examiners to finalize multiple office actions. Wrote and filed a patent application. Conducted pro bono research and participated in summer trainings.

East Bay Dreamers Project (Student Initiated Clinic)   **Sep. 2018 – Feb. 2019**
Student Advocate
Counseled DACA recipients under the supervision of an attorney at the East Bay Community Center.

University of Wisconsin, Madison, Division of Technology   **May 2017 - July 2018**
Project Manager
Managed and successfully finished $500,000 Learning Management System conversion projects and a $500,000 Enrollment Experience improvement project. Coordinated multiple smaller Registrar Office related projects by setting expectations, project scope and budgets. Wrote reports documenting progress and completion. Worked with developers on new internal software developments and implemented them at University-wide level.

Epic Systems   **Aug. 2014 – Mar. 2017**
Implementation Specialist/Project Manager
Managed multiple electronic medical records software implementation for large and community-based healthcare Organizations worldwide. Worked with developers, quality assurance and technical services representatives to help with new development and forming of future recommendations by translating customer needs into detailed technical requirements and soliciting technical information from developers. Worked on internal system configuration and became certified in the coding language Mumps. Wrote system queries and updated specialized code extensions. Helped deescalate implementations in danger of failure to help them get back on track with their system customization (including Epic offices in Dubai and Denmark).
